Mechanic helpdesk query

How To Change The Vehicle Sticker Names.

This process shows how Mechanic can change the names of the sticker fields for all the existing vehicles.

This is useful when the types of reminders that are used are changed over the years, and so the field names are also changed.

STEP 1: Edit the default vehicle - which is rego code [] - and change the sticker names as required.

STEP 2: When the Mechanic system is not being used...

1. Enter the support password, (from the main menu, select option 6 and enter the password).
2. Press Ctrl-Alt-V to display the vehicle ladder.
3. Press Ctrl-U to update all the vehicles.

It will take several minutes to update all the vehicles.

The screenshot shows the MECH V11 software interface. The main window is titled 'MECH V11' and contains several sections:

- VEHICLE REPORT**: A green box containing a brief report: 'REAR LEFT TYRE IS WORN' and 'SLIGHT TRANSMISSION LEAK'. It also has options for 'Print on Rem.' (set to 'N') and 'Private Report'.
